

Why should teachers register with Dynamic Personnel?

Experience

If there is something that no one can take away from you, it's experience. Alicia is the Chief Executive of Dynamic Personnel and has more than 7 years international recruitment experience. She has traveled the world (well almost) and is well equipped to assist both candidates and clients. With her "go-getter" and "don't leave it for tomorrow" attitude, you can be sure of the best service delivered in the shortest possible time.

Alicia regularly visits client schools in the Middle East to ensure the business relationship is well looked after. She stays informed of requirements and specific qualities that client schools are looking for in teachers. As they are responsible for the students' education they would want to employ the best candidate. Alicia, being the perfectionist she is, will not rest until she finds the perfect candidate.

While visiting the schools in the Middle East, she familiarizes herself with the staff and teaching environment. She wants to be sure that candidates are offered the best and that they'll enjoy an unforgettable stay and incomparable teaching experience. Happy teachers make for happy students. After all, it's all about the children.

Recruiting & Assistance

Jolene joined Dynamic Personnel in 2010. She has 6 years combined experience in HR and recruitment. Being a service oriented person she'll go the extra mile to offer friendly, fast and efficient assistance to all applicants. You'll feel right at home with Dynamic Personnel.

Time management is at the order of the day. Every day brings new applications which need to be considered, inquiries which need to be replied to, interviews that need to be scheduled and outstanding documents that need to be followed up on. It's all part of Dynamic Personnel's quality, professional service.

By regularly following up on outstanding documents, she makes sure that all the necessary documents are at hand for immediate availability on request of client schools. This allows the client school to make an informed decision before investing time in interviews. This ensures that neither their, the candidate's nor Dynamic Personnel's time is wasted and ultimately saving on the cost of expensive international calls. See, we're all doing our bit for the environment.
